EDUCATION

VJTI College| B. Tech in Electrical Engineering   June 2017
- CGPA: 7.75/10

EXPERIENCE

Capgemini Technology Services India Limited   November 2021 – Present

Senior Test Automation Engineer   November 2021 – Present

Leading the team from the initial phase of the project. Participated in initial project planning like resource allocation, test estimate and highlighting risk. Had the ownership of testing around 25% of the project.

Key Responsibilities:
- Worked on automation and maintenance of 200+ test cases in Selenium WebDriver using C# in NUnit hybrid framework.
- Helped team automating API workflows in python using requests for sending HTTP requests, psycopg2 to connect to PostgreSQL and openpyxl to read/write in Excel.
- Raising defect and tracking the defect for its entire lifecycle. Testing the application and providing sign off.
- Leading the team by assigning task to team, helping them with their queries and unblocking them.

CitiusTech Healthcare   July 2017 – November 2021

Automation Tester   March 2018 – November 2021

Responsible for Development and execution of new automated test cases in Regression suite along with maintenance of existing Regression suite containing 900+ test cases.

Key Responsibilities:
- Developed regression automated Test case in Selenium WebDriver using C# and SpecFlow in BDD framework.
- Execution and failure analysis of existing Regression suite consisting of 900+ test cases including reporting and tracking of defects as encountered via automated scripts.
- Worked on enhancing existing framework by adding WCF plugin validation, reading and storing Nested JSON data using Newtonsoft
- Involved in designing of Automation Test cases using Selenium WebDriver, Java, TestNG and Maven

Manual Tester   July 2017 - March 2018

Responsible for day-to-day testing activities including requirement analysis, test execution, prioritization, defect tracking, and timely closure of defects.

Key Responsibilities:
- Reviewed the Business Requirements document with the business and development team to understand

functionality of the application.
- Performed Manual Testing on the application.
- Involved in preparation of Test Plans for different functionalities and documented test cases and scripts for various features of the application.

.

SKILLS

Programming Languages and Framework
Proficient - C# | Java | Selenium | SpecFlow | RestSharp | TestNG | NUnit | Extent Reports

Software
Visual studio | Git | TFS | Azure | Eclipse
